

OLAJOBI MOH'D MUHTADY A.

DATA ANALYST

Ikotun, Lagos, Nigeria | Muhtadyajibola@gmail.com | +234-701-669-4886

LinkedIn: [linkedin.com/in/muhtady-olajobi-795b131b6](https://www.linkedin.com/in/muhtady-olajobi-795b131b6) | GitHub: github.com/TeddyM1975

PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience transforming complex datasets into actionable business insights. Proficient in Python, SQL, PostgreSQL, Power BI, and Excel. Demonstrated expertise in building automated financial reporting pipelines, designing interactive dashboards, and implementing ETL workflows. Proven ability to work with large-scale transaction data, perform advanced DAX modelling, and communicate data-driven findings to executive stakeholders. Founder of Horizon Management Tech Solutions (H.M.T.), applying analytics to solve real-world challenges in education, finance, and operations.

PROFESSIONAL EXPERIENCE

Data Analyst / BI Developer | GlobalPay (Contract) Feb 2026 – Present

- Architected a live data pipeline connecting Power BI to an AWS RDS (PostgreSQL) production database, overcoming SSL/TLS certificate authentication and VPC network security barriers.
- Engineered dynamic SQL queries using Regex and pattern-matching to segment card brands (Visa, Mastercard, Verve) from raw PAN data, improving data granularity by ~40%.
- Developed advanced DAX measures (OFFSET, SUMX, CALCULATE) to automate Week-over-Week (WoW) and Day-over-Day (DoD) performance tracking for executive dashboards.
- Implemented Python-based ETL scripts (Pandas/PySpark) as a fail-safe data bridge, ensuring 100% data availability during native connector failures.
- Optimised database load performance with server-side filtering (date_trunc, make_date), reducing data latency and achieving sub-second report responsiveness.
- Orchestrated migration and stabilisation of Power BI Report Server (Jan 2026 Release), resolving critical Analysis Services crashes and disk-space optimisation issues.
- Designed a corporate transaction dashboard with Bookmark Navigators, Slicer Syncing, and conditional formatting, delivering an app-like UX for merchants such as Dstv and partner banks.
- Leveraged Microsoft Purview and Power BI Activity Logs to monitor data lineage and ensure compliance with enterprise security standards.

KEY PROJECTS

HR Analytics Dashboard — Power BI · Python · Pandas

- Developed an interactive Power BI dashboard analysing employee attrition trends across departments, job roles, demographics, and tenure.
- Identified an overall attrition rate of 16.1%, with Sales (20.6%) and HR (19.0%) as highest-risk departments; recommended targeted retention strategies.
- Performed full EDA using Python (Pandas, Matplotlib, Seaborn) to surface key attrition drivers. | GitHub: github.com/TeddyM1975/HR-Analytics

School Attendance Tracking System — Python · PostgreSQL · Termii API · QR Code

- Designed a QR-code attendance system recording student entry/exit in real time, integrated with Termii WhatsApp API for instant parental notifications.
- Built a PostgreSQL database for secure attendance logging; achieved 90%+ accuracy improvement and 70% reduction in manual reporting time.

Sales Dashboard Analysis — Power BI · SQL

- Built an end-to-end sales performance dashboard providing regional revenue breakdowns, period-over-period comparisons, and KPI variance tracking.

TECHNICAL SKILLS

- **BI & Visualisation:** Power BI (Desktop & Service), DAX, Power Query (M), Excel (Pivot Tables, VLOOKUP, Advanced Formulas)
- **Programming & Libraries:** Python (Pandas, NumPy, Matplotlib, Seaborn, Psycopg2), SQL
- **Databases:** PostgreSQL (Administration, Query Optimisation), AWS RDS, Data Modelling, Star Schema
- **ETL & Automation:** Python ETL Scripts, Power Automate, REST APIs, Automated Refresh (Power BI Gateway)
- **Cloud & Infrastructure:** AWS RDS, SSL/TLS Configuration, Power BI Service, On-Premises Data Gateway
- **Analytics Methods:** EDA, Statistical Analysis, Hypothesis Testing, Cohort Analysis, Data Cleaning & Transformation
- **Version Control:** Git, GitHub

CERTIFICATIONS

- DataCamp Certified Data Scientist Associate
- DataCamp Certified SQL Associate
- DataCamp Certified Data Engineer Associate
- The Complete Python Bootcamp from Zero to Hero — Udemy
- The Complete Machine Learning & Data Science Bootcamp — Udemy

EDUCATION

Bachelor of Engineering – Metallurgical & Materials Engineering

University of Lagos, Yaba, Lagos State | Jan 2018 – Jan 2025

ADDITIONAL

Founder, Horizon Management Tech Solutions (H.M.T.) — Built and deployed data analytics, AI, and automation solutions for schools and SMEs across Lagos.
