

OLAJOBI MOH'D MUHTADY A.

DATA SCIENTIST

Ikotun, Lagos, Nigeria | Muhtadyajibola@gmail.com | +234-701-669-4886

LinkedIn: [linkedin.com/in/muhtady-olajobi-795b131b6](https://www.linkedin.com/in/muhtady-olajobi-795b131b6) | GitHub: github.com/TeddyM1975

PROFESSIONAL SUMMARY

Data Scientist with hands-on experience building and deploying end-to-end machine learning pipelines, NLP systems, and predictive models that drive measurable business outcomes. Proficient in Python (Scikit-learn, Pandas, NumPy), SQL, Power BI, and PostgreSQL. Experienced in supervised and unsupervised learning, feature engineering, model evaluation, and deploying solutions via Flask/Streamlit. Achieved 91% accuracy on a loan approval ML model and developed LLM-powered chatbots using Hugging Face Transformers, RAG/FAISS, and OpenAI APIs. Passionate about applying machine learning and statistical modelling to solve complex real-world challenges. Certified DataCamp Data Scientist Associate.

PROFESSIONAL EXPERIENCE

Data Scientist / BI Developer | GlobalPay (Contract) Feb 2026 – Present

- Designed and deployed predictive analytics models to identify transaction anomalies and forecast payment volumes using Python (Scikit-learn, Pandas).
- Engineered ML-ready datasets by building automated ETL pipelines (Python/PySpark) that extract, clean, and transform large-scale financial transaction data from AWS RDS (PostgreSQL).
- Developed advanced statistical measures (DAX/Power BI) for real-time WoW and DoD performance tracking, enabling data-driven decision-making for executive stakeholders.
- Implemented a custom transaction classification engine using pattern-matching algorithms, improving data granularity by ~40% for card issuer success rate analysis.
- Applied time-series analysis techniques to model transaction trends and provide actionable forecasts to the finance operations team.

PROJECTS

Loan Approval Prediction Model — Python · Scikit-learn · Pandas · NumPy

- Built and evaluated a classification ML model achieving 91% accuracy in predicting loan approval outcomes from structured financial data.
- Applied feature engineering, hyperparameter tuning, and cross-validation to optimise model performance. | GitHub: github.com/TeddyM1975/Loan-Approval

Wikipedia Q&A Chatbot (NLP / LLM) — Hugging Face · RAG · FAISS · DistilBERT

- Developed an LLM-based question-answering system using Retrieval-Augmented Generation (RAG) with FAISS vector indexing and Hugging Face Transformers (DistilBERT).
- Enabled semantic search over large document corpora, delivering contextually relevant answers in real time. | GitHub: github.com/TeddyM1975/Wikipedia_Question_Answering_Bot

Paris Travel Chatbot — OpenAI GPT · Python · Flask

- Built a domain-specific conversational chatbot leveraging OpenAI GPT APIs with custom prompt engineering and session memory for context-aware travel recommendations.

USA House Prices Prediction — Python · Scikit-learn · Regression Modelling

- Developed a regression model to predict residential property prices, applying EDA, feature selection, and hyperparameter tuning to achieve strong predictive accuracy.

HR Attrition Analytics — Python · Power BI · Pandas

- Performed statistical analysis and EDA to identify key attrition drivers across 1,400+ employee records; surfaced an overall 16.1% attrition rate with actionable department-level insights.

School Attendance Tracking System — Python · PostgreSQL · QR Code · Termii API

- Built an end-to-end automated system with real-time parental WhatsApp notifications, achieving 90%+ accuracy improvement and 70% reduction in manual reporting. | GitHub: github.com/TeddyM1975/SchoolTrack

TECHNICAL SKILLS

- **Machine Learning:** Regression, Classification, Clustering, Model Evaluation, Feature Engineering, Hyperparameter Tuning (Scikit-learn)
- **NLP & LLMs:** Hugging Face Transformers, RAG (FAISS), Semantic Search, DistilBERT, OpenAI GPT, Prompt Engineering
- **Programming:** Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, BeautifulSoup, Psycopg2), SQL
- **Data Engineering:** ETL pipelines, AWS RDS, PostgreSQL, Data Modelling, Star Schema
- **BI & Visualisation:** Power BI (DAX, Power Query), Excel
- **Deployment:** Flask, Streamlit, Dash, Cloud Deployment (AWS)
- **Version Control:** Git, GitHub

CERTIFICATIONS

- DataCamp Certified Data Scientist Associate
- DataCamp Certified SQL Associate
- DataCamp Certified Data Engineer Associate
- The Complete Machine Learning & Data Science Bootcamp — Udemy
- The Complete Python Bootcamp from Zero to Hero — Udemy

EDUCATION

Bachelor of Engineering – Metallurgical & Materials Engineering

University of Lagos, Yaba, Lagos State | Jan 2018 – Jan 2025

ADDITIONAL

Founder, Horizon Management Tech Solutions (H.M.T.) — Delivers AI, ML, and data analytics products to schools and SMEs; portfolio includes predictive models, NLP chatbots, and real-time notification systems.
